Dear Dominique,

I am writing to you following your letter to Councillor Dudley on the 5 May. To secure the Council's support for the expansion of the Academy, Council officers will prepare a paper for consideration at a full council meeting and we would welcome your input to the key areas. These include the nature and operation of the steering group you have suggested and the overarching principles for cost control within the project to demonstrate the necessary financial probity.

It is important that this process is private in order that we can develop proposals that balance the Academy's need for certainty and the Council's need for financial control. Can you please advise who the officers should contact in the first place to undertake this work.

Best wishes

Kevin McDaniel  
Director of Children's Services
